The object of this Bulletin is to provide a guide to medical science and thought in Britain, and it consists mainly of summaries of a representative selection of British papers on subjects of medical interest. Any material appearing in the Bulletin may be published without fee, but acknowledgment of the source, by addition of the initial letters BMB followed by the serial numbers of the items selected, would be appreciated.

PERIPHERAL NERVES

SPECIAL CONTRIBUTION

RECENT WORK ON PERIPHERAL NERVE INJURIES
by Professor H. J. Seddon

A New Classification of Nerve Injuries...
Nerve Block in the Investigation of Peripheral Nerve Injuries...
Innervation and Function of the Thernar Muscles...
Splintage of Peripheral Nerve Injuries...
Fibrin Suture of Peripheral Nerves in Animals...
Fibrin Suture of Human Nerves...
Various Materials in Experimental Nerve Suture...
Amnioplastin in Peripheral Nerve Injuries...
Repair of Large Gaps in Peripheral Nerves...
Degeneration and Re-Innervation of Nerve Grafts...
Histological Condition of a Nerve Autograft in Man...
Functional Recovery after Nerve Grafts...
Chemical Inhibition of Fibre Regeneration and Neuroma Formation...
Local Application of Sulphanilamide to Peripheral Nerves...

TRACTION INJURIES OF NERVES

Traction Injuries to Nerves in the Human Subject...
Experimental Traction Nerve Injuries in Animals...

FACTORs AFFECTING NERVE RECOVERY AND REPAIR

Recovery of Motor Function after Nerve Lesions...
Recovery of Sensory Function after Nerve Lesions...

THE ACTUAL PROCESSES OF NERVE REPAIR.

Regeneration after Immediate and Delayed Suture...
Recovery of Fibre Numbers and Diameters...
Rate of Regeneration...
Early Degeneration of Cutaneous Fibres...
Local Extension of Cutaneous Nerve Fibres...
Axonal Regeneration in Cutaneous Nerve Pleasures...
Structure of Connective Tissue Sheaths of Cutaneous Nerves...

THE BLOOD VESSELS OF PERIPHERAL NERVES

Historical Review...
Effects of Ligation of Regional Vessels...

REGENERATION IN THE CENTRAL NERVOUS SYSTEM

Influence of Spinal Ganglia and Nerve Fragments Grafted into the Brain...
Insertion of Peripheral Nerve Stumps into the Brain...

OBSERVATIONS ON DENERVATED MUSCLE

Effect of Electrotherapy...
Clinical Application of Electromyography...

Bibliography of Other Relevant Papers...
